

Equipment Type			Minimum** Efficiency Criteria	Sizing and Selection	Incentive
Water Heater	Natural Gas/ Propane	Tankless - On-Demand	<2 gallons & Uniform Energy Factor – UEF 0.81, or greater		\$300
		Tank, Power- vented	≤55 gallons & Uniform Energy Factor – UEF 0.64, or greater OR >55 gallons & Uniform Energy Factor -UEF 0.85, or greater		\$300
	Electric	Heat Pump	Energy Factor - Uniform Energy Factor – UEF 2.0, or greater		\$500
Furnace and Water Heater Combination			Qualifying Tier 1 natural gas/ propane furnace (above) AND a qualifying water heater (above)		\$700
			Qualifying Tier 2 natural gas/ propane furnace (above) AND a qualifying water heater (above)		\$950
Boiler and Water Heater Combination			<ul style="list-style-type: none"> • Combi-boiler – an integrated unit, combining a water heater and a qualifying boiler (above) • Qualifying stand-alone water heater (above) AND a qualifying boiler (above) • Indirect water heater attached to a qualifying boiler (above) 		\$700
